

ABOUT US

We are younger and older people who want to work together to create a fair and livable world. We carry out development-policy work on the African continent, in close cooperation with local partner organizations. In Malawi, together with the Chiuno NGO, we are building the Chiuno Cultural Center, which includes a kindergarten, a primary school, teachers' houses, and opportunities for vocational training in training workshops.

YOOW was founded in 2004 and, as a registered association, has since 2008 successfully implemented projects in Sierra Leone as well as training programs for young refugees in Berlin.

OUR GOALS

YOOW e.V. pursues three goals:

- Project work together with young people and seniors
- Intergenerational work
- international development-work on the African continent together with our local partner organizations, which we support in their development

OUR WORK

primarily serves the self-empowerment of people. That is why we promote self-determined control over economic, technical, and social resources. We share our knowledge and support people's development.

OUR SUPPORT

is guided by the needs and concerns of the people and follows the principles of sustainability and the protection of the climate and environmental resources.

WE ARE YOOW E.V.

OUR PROJECT IN MALAWI

Together with the local Chiuno NGO, we are building the Chiuno Cultural Center near Kasungu in Malawi. Under construction since 2019, the project will be completed in the coming years.

It offers a kindergarten, a primary school with a library and administrative office, training workshops especially for women to start their own businesses, a teaching kitchen for healthy nutrition using self-grown fruit and vegetables, as well as teachers' houses, and soon a medical building with an outpatient clinic. The dining hall serves as a meeting place and venue for cultural events. All buildings are connected to a biological wastewater treatment plant. This year, the power supply will be installed via a solar power system.

WE THANK ALL OUR SUPPORTERS

YOOW can only function thanks to a broad network of supporters. The projects are financed through grants and donations.

>15 Fundings

>650.000€ in project funds
